### **Job Description (Terms of Reference):**

1. Organize and monitor timely collection, compilation and analysis of surveillance data from allotted States and take appropriate action and give feedback to concerned States/UTs.
2. Regular visits for monitoring the IDSP/IHIP implementation in allocated states.
3. Supervising, monitoring and training State/District Epidemiologists and liaison with SSOs/DSOs.
4. Initiate and guide outbreak investigations promptly following the Standard Operating procedures.
5. Support effective operational integration of disease control efforts based on the surveillance data.
6. Coordinate regular meetings of key strategic stakeholders, lab partners, field epidemiologists, training partners and potential vertical program collaborations and assist in inter-sectoral coordination for effective IDSP/IHIP implementation.
7. To analyse and use the data to develop scientifically sound conclusions—which can then be the basis for policy.
8. Monthly performance report to be prepared for appraisal.
9. The work shall include frequent travel to assigned States.
10. Performing other duties as required in the interest of the programme and any other work/activity assigned from time to time.
