Title:	60 dengue cases come to fore in Solan district, Himachal Pradesh			
Action By CSU, IDSP -NCDC	Information communicated to DSU-Solan, SSU-Himachal Pradesh			

With 60 cases of dengue coming to the fore in Solan district, the health authorities are in a state of alert.

Medical Officer, Health, Dr NK Gupta, said 60 cases of dengue had been recorded since the beginning of the year with the maximum of 27 cases coming to the fore in the Regional Hospital, Solan. A majority of the cases pertain to the people who reside in other places but are permanent residents of Solan.

He said in the Baddi industrial area, where 21 cases had come to the fore, the requisite measures like fogging and other steps had failed to be undertaken effectively. In the Nalagarh industrial area too, things were equally pitiable and 12 cases of dengue had been detected.

Officials of the MC area of Parwanoo, on the other hand, have done a commendable work this year in containing the disease. Not a single case has surfaced from the town and its precincts though more than 1,000 cases had surfaced last year.

Three coordination committee meetings have been presided over by the deputy commissioner which have helped speed up generating awareness in all blocks of the district.

Save Water- Save Life, Save a tree- Don't print unless it's really necessary!
