Media alert from the Media Scanning & Verification Cell, IDSP-NCDC.

Alert ID	Publication Date	Reporting Date	Place Name	News Source/Publication Language
5742	02.02.2020	03.02.2020	Koraput Odisha	www.pragativadi.com/English https://pragativadi.com/diarrhoea-outbreak-in-koraput-over-25-taken-ill/
Title:	At least 25 persons of Kurukuti village in Koraput district-Odisha developed the symptoms of diarrhoea disease			
Action By CSU, IDSP -NCDC	Information communicated to DSU-Koraput, SSU-Odisha			

At least 25 persons of Kurukuti village in Koraput district developed the symptoms of diarrhoea disease reportedly due to suspected contamination of water.

Reportedly, the Health Department after receiving information about the diarrhoea outbreak in the region has swung into action. While the affected patients have been admitted to Baipariguda hospital, a team of doctors led by ADMO reached the village to take stock of the situation.

Officials of the department have started creating awareness in the affected zone apart from taking preventive measures to combat the outbreak.

While the reason behind the epidemic is still unknown, it is suspected that the consumption of contaminated water has led to Diarrhoea outbreak in the village.

Save Water- Save Life, Save a tree- Don't print unless it's really necessary!
