Title:	Dengue cases increasing in district Panchkula, Haryana			
Action By CSU, IDSP -NCDC	Information communicated to DSU-Panchkula, SSU- Haryana			

Dengue cases have more than doubled from 33 last year to 73 in 2020, most cases being reported in October and November. As a majority of health and civil workforce remains involved in fighting the pandemic, regular checks for reduction of larvae at source, regular sprays and fogging seems to have taken a beating for the worst. The Panchkula Health Department is requested to take steps to eradicate the spread of vector-borne diseases in the area.
