Title:	7 students in Bihar government school fell sick after inhaling toxic gas in Madhubani			
Action By CSU, IDSP -NCDC	Information communicated to DSU - Madhubani, SSU- Bihar			

Seven students of Bihar government school fainted after inhaling toxic gas on Monday. According to the reports, the students inhaled the toxic gas released due to the burning of coal in a nearby coal depot in Madhubani.

The students were immediately shifted to Sadar Hospital. The reports state the condition of the students is now stable. Further details are awaited.

On November 18, over 30 girl students at Hyderabad college fell ill after a suspected gas leak in the lab. The girls were immediately shifted to the hospital after they complained of breathlessness and dizziness.

Earlier a few days ago, as many as 200 students fell sick after consuming a mid-day meal at a school in Bihar's Bhagalpur. The students alleged that they were forced to consume the meal by the school authorities. They alleged that a dead lizard was found on the plate of a Class VIII student and when they complained about this to the Principal, he said that it was a brinjal and not a lizard.
