Title:	Six cases of dengue reported in first eight days of January in Ahmedabad, Gujarat			
Action By CSU, IDSP -NCDC	Information communicated to DSU- Ahmedabad, SSU- Gujarat			

City hospitals have registered six cases of dengue in the first eight days of January.

A statement from the civic body's health department said that from January 1 to 8, city hospitals recorded two cases of malaria, six cases of dengue, 69 cases of diarrhoea, 43 cases of jaundice and 51 cases of typhoid.

The statement said that the civic body tested 3,143 water samples in December of which 71 were found unfit for consumption.

Sources said that most of the samples that have failed the lab test were collected from the eastern parts of the city.

The health department has started investigating the cause of water pollution, the statement said.

Save Water- Save Life, Save a tree- Don't print unless it's really necessary!
